Seasons History The Deool Band series was originally planned as a four-part serial. At the time of production, it was intended that the series would be based on a comedy-drama which would be produced by Mr. Chakravorty. However, the producers eventually decided to produce the serial as a drama because there was no audience for comedy serials at the time. Main Cast Suresh Menon Mohan Agashe I am writer who loves to write articles on various fields of life.I am also interested in painting and I love to do that, I am also skilled in cooking.I enjoy traveling and photography.I am simple and down to earth person.John Glenister John William Gloister (30 June 1897 – 27 September 1970) was a Scottish international rugby union player. Gloister represented Edinburgh District at a District level. He also represented Scotland at international level. He was capped four times for Scotland, his debut was against in March 1925. He won his second cap, against Ireland, at Inverleith in May 1925. He scored a single try for Scotland against in May 1926. His last match was against in November 1926. Outside of rugby, he was also a businessman. He was the managing director of the charity the Scottish Society for Mentally Defective Children. References Category:Scottish rugby union players Category:Scotland international rugby union players Category:1897 births Category:1970 deathsThe level of evidence is based on the collective opinion of the medical and scientific literature. In order to be classified as evidence based, a medical treatment must be: observed in controlled trials proven to be safe in the context of the treatment setting based on a structured evaluation of the best scientific evidence available. Not all treatments are evidence-based. This includes treatments that are used infrequently and without peer-reviewed evaluation, or treatments based on consensus or tradition. About the National Institute for Health and Clinical Excellence NICE's products provide evidence-based health care advice for NHS patients, their carers and the public. Advice is given on NHS treatments, services and investigations. NICE sets the standard for medical care for the UK NHS. It is the NHS's lead organisation for developing health care. Patient information leaflets are written by the NHS and approved by NICE 82157476af
